Addonics Unveils High Performance Host Adapter with Throughput Up To 20 Gbps

SAN JOSE, CA (August 26, 2015) -- Addonics Technologies (www.addonics.com) today announced the 6G 4-port eSATA controller, a high performance host adapter that provides total throughput of up to 20 Gbps (20,000 Mbps) via single PCIe 4-lane slot.

The Addonics' controller supports any SATA hard drive, SSDs or optical drive. All drives appear as individual drives and can be configured to form a RAID group using the RAID utility of the operating system. By attaching four high performance SSDs, a high performance, large capacity storage system can be easily created by stripping the four drives using the OS RAID utility.

The controller is an ideal solution for attaching numerous external drives to a computer. The controller also supports connecting Port Multipliers in individual drives or RAID configurations. When combined with four Addonics 5-port PM, as many as 20 drives can be attached to any system. You can also connect up to 4 eSATA storage devices via a single PCIe 4-lane slot

Key features include 6 Gbps throughput per port, throughput up to 20 Gbps (2 GB/sec) when installed into PCIe 2.0 or 3.0 slot, Port Multiplier (PM) compatible (configured as individual drive or RAID), and connection to as many as 20 drives to a system when combining with four Addonics 5-port [PMs](#) in individual drive configuration.

The simple plug and play product is compatible with HDD, SSD, Optical Drives and Blu-Ray Drives. It can be installed into the PCI-Express 4 lanes slot (also fits into PCI-Express 8/16 Lane or the graphic card slot). It will fit just about any computing system with a standard full height slot. The controller is compatible with Windows, Mac, Linux or any OS with built-in AHCI driver.

For more information see: <http://addonics.com/products/ad4es6gpx4.php>.

Suggested retail is \$169.00.

About Addonics Technologies

Addonics manufactures and markets a broad line of internal/external and mobile storage products. Addonics products are available through the company online store www.shopaddonics.com, major catalog companies, resellers, VARs and distributors, including Amazon.com, PC Connection, CDW, Buy.com, Provantage.com, Insight, and Ingram Micro.
